ITEM 4 – ADVISORY BUSINESS

This disclosure document is being offered to you by Opus Financial Solutions LLC (“Opus”, “Adviser,” “Our Firm”, “Our” or “We”) about the investment advisory services we offer. It discloses information about the services that we provide and the way those services are made available to you, the client.

Opus became registered as an Investment Adviser with the Securities and Exchange Commission (“SEC”) in June 2021. Lisa Bayer is the principal owner. Jaco Jordaan is the Chief Compliance Officer of the Firm.

Opus offers financial planning, tax, and investment advisory services to individuals, families, and businesses under an Advisory Services Agreement, Financial Planning Agreement, or Retirement Plan Consulting Agreement. Our Firm is committed to helping clients build, manage, and preserve their wealth.

INVESTMENT MANAGEMENT & SUPERVISION SERVICES

We provide investment management services on a discretionary and non-discretionary basis. We will offer initial complimentary meetings upon our discretion; however, investment advisory services are initiated only after client and Opus execute an Advisory Services Agreement. We do not impose a minimum requirement to open and maintain a managed account for advisory services.

During personal discussions with clients, we determine the client’s objectives, time horizons, risk tolerance, and liquidity needs. As appropriate, we also review a client’s prior investment history, as well as financial situation and background. Based on these factors, we develop a client’s personal profile and investment plan. We then manage the client’s investments based on an agreed upon investment plan. It is the client’s obligation to notify us immediately if circumstances have changed with respect to their goals or financial circumstance. Once we have determined the types of investments to be included in a client’s portfolio and have allocated the assets, we provide ongoing investment review and management services.

With our discretionary relationship, we will make changes to the portfolio, as we deem appropriate, to pursue client financial objectives. We execute trades in client portfolios based on the combination of our market views and client objectives, using our investment process. We make periodic portfolio adjustments as warranted, including adjustments focused on rebalancing the portfolio to the target allocation, tax loss harvesting strategies, addressing changes in a client’s financial circumstances, or securities changes based on evolving market or economic circumstances and our ongoing due diligence. We tailor our advisory services to align with the needs of our clients and seek to ensure that the client’s portfolio is managed in a manner consistent with those needs and objectives. Clients have the ability to leave standing instructions with us to refrain from investing in particular industries or invest in limited amounts of securities. We primarily allocate client assets among Exchanged Traded Funds (“ETFs”), no-load, load-waived, or institutional shares of mutual funds, or other equities in accordance with their stated investment objectives.

If a non-discretionary relationship is in place, calls will be placed presenting the recommendation made and only upon your authorization will any action be taken on your behalf. We have limited authority to direct the Custodian to deduct our investment advisory fees from accounts, but only with the appropriate written authorization from clients.

Clients may engage us to advise on certain investment products that are not maintained at our Firm’s recommended custodian, such as variable life insurance, annuity contracts, and assets held in employer sponsored retirement plans. Where appropriate, we may provide advice about any type of held-away account that is part of a client portfolio.

You are advised and are expected to understand that our past performance is not a guarantee of future results. Certain market and economic risks exist that can adversely affect an account's performance and result in capital losses in your account.

FINANCIAL PLANNING SERVICES

Our clients face ongoing financial decisions that require them to make choices about how they allocate their resources. Our financial planning services are intended to help organize these choices by creating personalized analyses and recommendations that address our clients' goals, concerns and needs. In order to develop a plan and recommendations, we undertake a process of discovery to understand our clients' financial position, goals, challenges, concerns, and requirements. With the unique goals and circumstances of each family in mind, we may offer financial planning recommendations and strategies relating to the client's budget, savings plan, risk assessment, portfolio analysis, retirement plan, insurance needs analysis, education savings strategy, tax strategy and estate plan. This may include preparing a specific asset allocation strategy and an investment plan that includes the recommended securities in the overall portfolio.

Our specific services in preparing your plan may include:

- Review and clarification of your financial goals.
- Assessment of your overall financial position including cash flow, balance sheet, investment strategy, risk management, and estate planning.
- Creation of a unique plan for each goal you have, including personal and business real estate, education, retirement or financial independence, charitable giving, estate planning, business succession, and other personal goals.
- Development of a goal-oriented investment plan to our clients around tax suggestions, asset allocation, expenses, risk, and liquidity factors for each goal. This includes IRA and qualified plans, taxable, and trust accounts that require special attention.
- Design of a risk management plan including risk tolerance, risk avoidance, mitigation, and transfer, including liquidity as well as various insurance and possible company benefits; and
- Other specific areas you have hired us to review and advise you on.

RETIREMENT PLANNING

Proactive retirement planning should begin early in life and serve as a fundamental component of one's future financial security. Our focus with our clients is to help them understand if and when they can comfortably retire in the lifestyle they choose; how and how much to save; how to structure their portfolios at different periods of their lives; how to avoid outliving their resources; how to minimize taxes throughout their lives; how to optimize social security and pension accounts; ideal, tax efficient withdrawal strategies, and increase their protection in the event of unanticipated health crises.

We may look at a variety of potential "scenarios" that reflect optimistic and pessimistic or conservative inputs, and we may provide our clients with detailed cash flow scenarios based on these varying assumptions so that they are more informed about the impact of their choices.

Disclosure Regarding Rollover Recommendations

We are fiduciaries under the Investment Advisers Act of 1940 and when we provide investment advice to you regarding your retirement plan account or individual retirement account, we are also fiduciaries within the meaning of Title I of the Employee Retirement Income Security Act and/or the Internal Revenue Code, as

applicable, which are laws governing retirement accounts. We have to act in your best interest and not put our interest ahead of yours. At the same time, the way we earn compensation creates some conflicts with your interests.

A client or prospect leaving an employer typically has four options regarding an existing retirement plan (and may engage in a combination of these options): (i) leave the money in the former employer's plan, if permitted, (ii) rollover the assets to the new employer's plan, if one is available and rollovers are permitted, (iii) rollover to an Individual Retirement Account ("IRA"), or (iv) cash out the account value (which could, depending upon the client's age, result in adverse tax consequences). Our Firm may recommend an investor roll over plan assets to an IRA for which our Firm provides investment advisory services. As a result, our Firm and its representatives may earn an asset-based fee. In contrast, a recommendation that a client or prospective client leave their plan assets with their previous employer or roll over the assets to a plan sponsored by a new employer will generally result in no additional compensation to our Firm. Our Firm therefore has an economic incentive to encourage a client to roll plan assets into an IRA that our Firm will manage, which presents a conflict of interest. To mitigate the conflict of interest, there are various factors that our Firm will consider before recommending a rollover, including but not limited to: (i) the investment options available in the plan versus the investment options available in an IRA, (ii) fees and expenses in the plan versus the fees and expenses in an IRA, (iii) the services and responsiveness of the plan's investment professionals versus those of our Firm, (iv) protection of assets from creditors and legal judgments, (v) required minimum distributions and age considerations, and (vi) employer stock tax consequences, if any. Our Firm's Chief Compliance Officer remains available to address any questions that a client or prospective client has regarding the oversight.

TAX REDUCTION PLANNING

One component of wealth preservation and creation is minimizing taxes. At Opus, while we work closely with some of our clients' CPAs and are always open to coordinating with more, we have found that there is often a need for a more streamlined, integrated solution between clients' financial planners and their accountants. As such, we offer a consolidated solution, providing financial planning that when applicable, also integrates tax planning into our reviews and recommendations. As an Authorized IRS E-File Provider, we can proactively strategize about our clients' situations and determine, upon our client's choosing, the proper preparation and filing of their federal and state tax returns.

RETIREMENT PLAN ADVISORY & CONSULTING SERVICES

Opus provides retirement plan consulting services to plan sponsors under a separate Retirement Plan Consulting Agreement. Retirement plan advisory services consists of helping employer plan sponsors to establish, monitor and review their company's retirement plan. As the needs of the plan sponsor dictate, areas of advising could include investment selection and monitoring, plan structure, and participant education.

Pursuant to Section 402(c)(3) of ERISA, the client may appoint us as the Plan's "investment manager" with respect to the Plan's portfolio of investment options. We acknowledge that we are registered as an investment adviser under the SEC. Our firm acts as a "fiduciary" within the meaning of Section 3(21) and 3(38) of ERISA with respect to the Plan. We offer advisory services to employer sponsored retirement plans such as 401(k), 457, 403(b), and cash balance plans.

On the plan level, we manage the investment line-up recommending changes as a 3(21)-investment fiduciary or making changes as a 3(38)-investment fiduciary. If plans allow for self-directed brokerage accounts, it would be up to the participant to select investments and we would make no recommendations on those accounts.

When serving as an ERISA 3(21) investment adviser, the Plan Sponsor and our Firm share fiduciary responsibility. The Plan Sponsor retains ultimate decision-making authority for the investments and may accept or reject the recommendations in accordance with the terms of a Retirement Plan Consulting Agreement. Under the Retirement Plan Consulting Agreement, our Firm can provide the following services to the plan sponsor:

- Review or Development of an Investment Policy Statement
- Perform Due Diligence on Money Managers
- We typically use mutual funds/managed accounts/collective investment trusts/cash equivalents to structure portfolios designed to meet client objectives and risk profiles.
- Provide ongoing Performance Evaluation and Monitoring of Money Managers
- Make Investment Recommendations when necessary
- We will conduct an analysis of a client's retirement plan to evaluate the services currently provided to the client by third parties. The areas of analysis may include asset management services, record keeping, administration, customer service, participant education, fees, etc. These services may also include a cost/benefit analysis, recommendation of alternative vendors, facilitation of the request for proposal process for solicitation of a new vendor, and/or assistance in fee negotiations with proposed vendors.
- We may provide enrollment and educational services or coordinate the delivery of these services through a plan vendor. The contents of the program will be generic in nature and does not include advisory services for specific plan participants.

When serving as a result of the 3(38)-appointment, we are granted full trading authority over plan investments and have the responsibility for the selection and monitoring of all investment options offered under the plan in accordance with the investment policy statement and its underlying investment objectives and strategies for the plan. Plan participants have the ability to exercise control over the investment selection from the plan's line up of investments, and we have no authority or discretion to direct the investment of assets of any participant's account under the plan.

WRAP FEE PROGRAM

We do not offer a Wrap Fee Program.

ASSETS

As of January 31, 2022, our regulatory assets under management were \$113,230,396 in discretionary assets and \$7,852,292 in non-discretionary assets.

ITEM 5 - FEES AND COMPENSATION

INVESTMENT MANAGEMENT FEES AND COMPENSATION

As mentioned in Item 4, Opus offers financial planning, tax, and advisory services to retail investors and businesses under an Advisory Services Agreement.

Our Firm charges a fee ("Management Fee") as compensation for providing investment advisory services on your account. The Management Fee includes investment management supervision, trade entry, other account maintenance and service activities, and may include financial planning and tax-related services. Clients who meet the minimum quarterly Management Fee will be offered at no additional charge an initial financial plan, which will be updated as client financial needs or circumstances change, on an as-needed basis.

The fees for investment management are an annual percentage of assets under management and based on the quarter end value of the client's account(s). Our maximum annual Management Fee for accounts paying a percentage of assets under management is 1.00%. Our minimum quarterly management fee of \$2,500 is required for advisory services to include full financial planning services, including financial planning and tax planning services indicated in Item 4 – Advisory Business. Clients who do not meet a quarterly management Fee of \$2,500 per quarter under an Advisory Services Agreement may be provided with financial planning services upon request at an hourly rate of \$250 per hour, a fixed fee, or annual retainer in addition to Management Fees, subject to Adviser's discretion to waive or modify additional service charges

The specific Management Fees are set forth in the Advisory Services Agreement. Management Fees may vary based on the size of the combined assets, complexity of the portfolio, extent of activity in the account or other reasons agreed upon by us and you as the client. Management Fees are billed on the quarter end value of the account, on a pro-rata basis, and billed quarterly in arrears on a three-month billing cycle. The initial Management Fee will be billed in arrears and based upon the date the assets are transferred to our Custodian through a three month-billing cycle. Additional deposits and withdrawals made throughout a billing cycle will be added or subtracted from the assets in a prorated basis to adjust the Management Fee.

Opus may recommend an externally custodied annuity and charge fees in accordance with our Management Fees schedule. In general, Opus will set up externally held annuities at the marginal Management Fee rate based on aggregate assets under management including the annuity value. Opus will either use the carrier's billing process when it aligns with our own billing process, or manually calculate fees at the effective marginal rate and submit invoices to each insurance carrier for billing where the carrier's billing process does not align with our own billing process.

Unless otherwise instructed by the client, we will aggregate asset amounts in accounts from your same household together to determine the advisory fee for all your accounts. We would do this, for example, where we also service accounts on behalf of your minor children, individual and joint accounts for a spouse, and/or other types of related accounts. This consolidation practice is designed to allow you the benefit of an increased asset total, which could cause your account(s) to be assessed a lower marginal advisory fee.

The independent qualified custodian holding your funds and securities will debit your account directly for the advisory fee and pay that fee to us. You will provide advance written authorization permitting the fees to be paid directly from your account held by the qualified custodian. Clients will have online access to both the Custodian's online platform as well as an Opus client portal that provides position, transaction detail, allocation, and return information. Further, the qualified custodian agrees to deliver an account statement at least quarterly directly to you indicating all of the positions and transactions, including the amounts deducted from the account for our Management Fees. At our discretion, our Firm will allow Management Fees to be paid outside of the managed accounts. You are encouraged to review your custodian account statements for accuracy. Our recommended custodian also charges transaction costs, custodial fees, redemption fees, retirement plan and administrative fees or commissions. See Additional Fees and Expenses below for additional details.

As an added service, clients may request that we provide investment recommendations and due diligence reviews for external assets. There generally are two options available to do so.

- 1) Linking External accounts (such as employer retirement accounts (401(k) or 403(b)) – For a rate of 0.25% annually (minimum of \$35 per quarter), we will incorporate linked external accounts into our ongoing investment assessments and recommendations. These accounts will also be viewable within the Opus portal. While linked, as we will only have view access, clients are solely responsible for the implementation of any provided recommendations. If clients are unable to link external accounts but

request Adviser to include them into our ongoing investment assessments and recommendations, the above noted fee applies.

- 2) External accounts – Aggregation only. This provides linking of external accounts for purposes of view only aggregation of all of our client’s holdings through the Opus portal. We will not provide investment advice with respect to these accounts, but they will be incorporated into our overall review and recommendation pertaining to a client’s portfolio asset allocation. The fee for linked aggregation is \$35 per account per quarter.

Either Opus or you may terminate the Advisory Services Agreement immediately upon written notice to the other party. The Management Fee will be prorated to the date of termination for the month in which the cancellation notice was given and billed to your account. Upon termination, you are responsible for monitoring the securities in your account, and we will have no further obligation to act or advise with respect to those assets. In the event of client’s death or disability, Opus will continue management of the account until we are given alternative instructions by an authorized party.

Management Fees are calculated pursuant to the agreed upon fee schedule in the Advisory Services Agreement. Your total fee will increase or decrease as portfolio values change. However, in no case will we alter the agreed upon fee schedule based on the performance of your funds or investments.

FINANCIAL PLANNING SERVICES FEES

Advisory Clients who do not meet a quarterly management Fee of \$2,500 per quarter may be provided with financial planning services upon request at an hourly rate of \$250 per hour, fixed fee, or annual retainer in addition to Management Fees. When hourly fees apply, before any engagement, we will provide an estimate of the time required for each service upon meeting with the client for an initial consultation. For purposes of disclosure, the typical range is \$1,500 - \$3,000, depending on the level of complexity of the assignment. As previously noted, after our initial consultation with our clients, we will provide a specific estimate of the hours required to complete a requested assignment based on the services requested, in advance of the engagement and in advance of any requested retainer.

Hourly consulting fees are generally billed and payable at the time the financial plan or agreed-upon deliverable is provided to you. Adviser may delay invoicing subject to follow-up work and identified at the plan presentation meeting. Such additional work will continue to accrue hourly charges subject to the adviser’s discretion to waive or reduce charges, and under these circumstances, fees will generally be billed at the time of final delivery.

Should you choose to terminate the Financial Planning Agreement by providing us with written notice, fees will be prorated to the date of termination and any earned portion of the fee will be billed to you based on the hours that our firm has spent on creating your financial plan prior to termination. The hourly rate used for this purpose is \$250 per hour.

RETIREMENT PLAN ADVISORY & CONSULTING FEES

Fees for retirement plan advisory and consulting services will vary depending on the specific services selected. In general, the more services provided by Opus, the higher the fee level, and the more basic and limited the services provided, the lower the fee level. Fees will be based on a percentage of plan assets and/or a flat fee and/or a project fee. Fees can be paid via an agreement to have the plan custodian or recordkeeper deduct and pay fees directly to Opus, an invoice to the plan custodian/recordkeeper, a direct invoice to the plan sponsor, or direct fee deduction from participant accounts subject to the Plan Agreement.

ADMINISTRATIVE SERVICES

We utilize third party technology platforms to support data reconciliation with our Custodian, performance reporting, fee calculation and billing, research, security screens, external account linking, client database maintenance, quarterly performance evaluations, payable reports, client portal administration, and other functions related to the due diligence and administrative tasks of managing client accounts. Due to this arrangement, these technology platforms will have access to client information but will not serve as an investment adviser to our clients. Opus and this third party are non-affiliated companies. This third party charges our Firm an annual fee based on the number of accounts administered. The annual fee is paid from the portion of the Management Fee paid to us by our clients.

ADDITIONAL FEES AND EXPENSES:

In addition to the advisory fees paid to our Firm, clients also incur certain charges imposed by other third parties, such as broker-dealers, custodians, trust companies, banks, and other financial institutions (collectively "Financial Institutions"). These additional charges include custodial fees, charges imposed by a mutual fund or ETF in a client's account, as disclosed in the fund's prospectus (e.g., fund management fees and other fund expenses), odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. These practices are described at length in Item 12, below.

ITEM 6 - PERFORMANCE BASED FEES AND SIDE-BY-SIDE MANAGEMENT

Our Firm does not engage in performance-based fees. Our advisors are not compensated by performance-based fees. Performance-based fees may create an incentive for the advisor to recommend an investment that may carry a higher degree of risk.

ITEM 7 - TYPES OF CLIENTS

We offer investment advisory and financial planning services as described above to individuals, families, business owners, executives, trusts, corporations, and other business entities. There is no minimum to establish an account with our Firm.

ITEM 8 - METHODS OF ANALYSIS, INVESTMENT STRATEGIES AND RISK OF LOSS

At Opus, we know our clients have a specific return and risk preference over time so that they can pursue their lifelong goals. Therefore, in constructing our clients' investment plan, we work to assure it aligns with their unique financial circumstances, life goals such as college or retirement savings goals, liquidity needs, tax profile, risk tolerance, and investment time horizons. Upon reviewing all their disclosed assets, including 401K or employer plans, we provide a specific savings, allocation, and investment plan that we then may implement or help to implement depending on the type of client engagement.

While we regularly screen and review our clients' holdings and our preferred holdings, we may recommend different securities for different clients, as each type of security has its own unique set of risks and attributes, and even among similar asset classes, risks can vary widely. However, overall, we typically expect that the higher the expected return of an investment, the higher the level of volatility and/or risk of loss associated with it.

Importantly, we do not believe it is always in a client's best interest to shift their portfolio holdings to those that mirror our recommended investment lists or any "model" portfolio. In some cases, those actions could result in adverse taxable consequences. In cases such as these, we know we may be required to analyze and regularly follow a more extensive list of securities in practice, but we also know that's what our clients pay us for and that is sometimes required of a fiduciary.

Because high fees can detract from goal achievement, we emphasize no-load, lower-cost mutual funds and/or ETFs. We also focus on longer term tax savings with tax-conscious asset location and tax-loss harvesting, where applicable. On an ongoing basis we employ both strategic and tactical investment strategies and rebalancing of the portfolio.

Through third party technology, we offer a secure web-based client portal where clients can access portfolio positions, performance, and where they can also store, share, and access their financial information and documents. While there may be some similarities in the portfolios created by Opus, we understand that every client has their own unique planning needs. We have the ability and flexibility to create portfolios to help our client pursue their unique goals that reflect their unique circumstances. We may utilize the following approaches and forms of analysis:

- **Asset Allocation:** Rather than focusing primarily on securities selection, we attempt to identify an appropriate ratio of securities, fixed income, and cash that we believe best supports the client's financial situation, investment goals and risk tolerance. A risk of asset allocation is that the client may not participate in sharp increases in a particular security, industry, or market sector. Another risk is that the ratio of equity securities, fixed income, and cash will change over time due to stock and market movements and, if not corrected with rebalancing adjustments, may no longer be appropriate for the client's situation and goals.
- **Mutual Fund and/or ETF Analysis:** We look at the experience and track record of the manager of the mutual fund or ETF in attempt to determine if that manager or strategy has demonstrated an ability to invest over a period of time and in different economic conditions. We also look at myriad historical portfolio statistics in combination to determine the historical efficacy relative to its strategy. We then monitor the funds or ETFs in attempt to determine if they are continuing to follow their stated investment strategy. In addition, we evaluate the fund or ETF's expense ratios and tax efficiency relative to peers and generally are biased towards lower cost and more tax efficient funds or ETFs. A risk of mutual fund and/or ETF analysis is that, as in all securities investments, past performance does not guarantee future results. A manager who has been successful may not be able to replicate that success in the future. In addition, as we do not control the underlying investments in a fund or ETF, managers of different funds held by the client may purchase the same security, increasing the risk to the client if that security were to fall in value. There is also a risk that a manager may deviate from the stated investment mandate or strategy of the fund or ETF, which could make the holding(s) less suitable for the client's portfolio.
- **Fundamental and/or Quantitative Analysis:** We evaluate portfolio positioning in the context of reports on the overall economy, industry conditions, asset class valuations relative to history and relative to other asset classes and government policy. Our approach combines a top-down view with an evaluation of bottom-up metrics. Top-down refers to a view developed by evaluating macroeconomic factors such as GDP growth, consumer trends, broad interest rates and government policy. Bottom up refers to a view developed by evaluating microeconomic factors such as company sales and earnings growth. Much of the data we use in fundamental analysis can be expressed in quantitative terms as mathematical ratios and trends. We compare these ratios to historical values and expectations of the ratios under various future economic and market conditions. Fundamental analysis presents a potential risk as an asset class can move up or down along with the overall market regardless of the economic and financial factors considered in evaluating the asset class

RISK OF LOSS

Investing in securities involve certain investment risks. Securities may fluctuate in value or lose value. Clients should be prepared to bear the potential risk of loss. Opus will assist Clients in determining an appropriate strategy based on their tolerance for risk.

Investors should be aware that accounts are subject to the following risks:

- **Market Risk** - Even a long-term investment approach cannot guarantee a profit. Economic, political, and issuer-specific events will cause the value of securities to rise or fall. Because the value of investment portfolios will fluctuate, there is the risk that you will lose money and your investment may be worth more or less upon liquidation.
- **Foreign Securities and Currency Risk** - Investments in international and emerging-market securities include exposure to risks such as currency fluctuations, foreign taxes and regulations, and the potential for illiquid markets and political instability.
- **Capitalization Risk** - Small-cap and mid-cap companies may be hindered as a result of limited resources or less diverse products or services Their stocks have historically been more volatile than the stocks of larger, more established companies.
- **Interest Rate Risk** - In a rising rate environment, the value of fixed-income securities generally declines, and the value of equity securities may be adversely affected.
- **Credit Risk** - Credit risk is the risk that the issuer of a security may be unable to make interest payments and/or repay principal when due. A downgrade to an issuer's credit rating or a perceived change in an issuer's financial strength may affect a security's value and thus, impact the fund's performance.
- **Exchange-Traded Funds** - ETFs face market-trading or liquidity risks, including the potential lack of an active market for shares, losses from trading in the secondary markets, and disruption in the creation/redemption process of the ETF. Any of these factors may lead to the fund's shares trading at either a premium or a discount to its "net asset value."
- **Performance of Underlying Managers** - We select the mutual funds and ETFs in the asset allocation portfolios. However, we depend on the manager of such funds to select individual investments in accordance with their stated investment strategy.
- **Cybersecurity Risk** - In addition to the Material Investment Risks listed above, investing involves various operational and "cybersecurity" risks. These risks include both intentional and unintentional events at our firm or one of its third-party counterparties or service providers, that may result in a loss or corruption of data, result in the unauthorized release or other misuse of confidential information, and generally compromise our Firm's ability to conduct its business. A cybersecurity breach may also result in a third-party obtaining unauthorized access to our clients' information, including social security numbers, home addresses, account numbers, account balances, and account holdings. Our Firm has established business continuity plans and risk management systems designed to reduce the risks associated with cybersecurity breaches. However, there are inherent limitations in these plans and systems, including that certain risks may not have been identified, in large part because different or unknown threats may emerge in the future. As such, there is no guarantee that such efforts will succeed, especially because our Firm does not directly control the cybersecurity systems of our third-party service providers. There is also a risk that cybersecurity breaches may not be detected.

ITEM 9 - DISCIPLINARY INFORMATION

Neither Opus, nor any of our advisors, has ever had any reportable disciplinary history as a result of criminal or civil actions, administrative enforcement actions, or self-regulatory organization enforcement proceedings.

ITEM 10 - OTHER FINANCIAL INDUSTRY ACTIVITIES AND AFFILIATIONS

OTHER AFFILIATIONS

Neither our firm nor our associated persons engage in any other financial industry activities or have any other financial industry affiliations.

ITEM 11 - CODE OF ETHICS

Our Firm allows our associated persons to invest for their own accounts, or to have a financial investment in the same securities or other investments that we recommend or acquire for your account and may engage in transactions that are the same as or different than transactions recommended to or made for your account. This creates a conflict of interest. We recognize the fiduciary responsibility to act in your best interest and have established policies to mitigate conflicts of interest.

We have developed and implemented a Code of Ethics that sets forth standards of conduct expected of our advisory personnel to mitigate this conflict of interest. The Code of Ethics addresses, among other things, personal trading, gifts, and the prohibition against the use of inside information.

The Code of Ethics is designed to protect our clients and to detect and deter misconduct, educate personnel regarding the Firm's expectations and laws governing their conduct, remind personnel that they are in a position of trust and must act with complete propriety at all times, protect the reputation of Opus, safeguard against the violation of the securities laws, and establish procedures for personnel to follow so that we may determine whether their personnel are complying with the Firm's ethical principles.

We have established the following restrictions in order to ensure our Firm's fiduciary responsibilities:

- No associated persons of Opus shall prefer his or her own interest to that of the advisory client.
- Trades for associated persons are traded alongside client accounts.
- We maintain a list of all securities holdings of anyone associated with this advisory practice with access to advisory recommendations. These holdings are reviewed on a regular basis by an appropriate officer/individual of Opus.
- We emphasize the unrestricted right of the client to decline implementation of any advice rendered.
- We require that all associated persons must act in accordance with all applicable Federal and State regulations governing registered investment advisory practices.
- Any associated persons not in observance of the above may be subject to termination.

None of our advisors may effect for himself/herself or for accounts in which he/she holds a beneficial interest, any transactions in a security which is being actively recommended to any of our clients, unless in accordance with the Firm's procedures.

In addition to our Firm's internal Code of Ethics, our advisors are subject to various additional Code of Ethics based on professional certifications and memberships. Examples include the CFP® Code of Ethics and Standards of Conduct for CFP certificants and the CFA Institute Code of Ethics and Standards of Professional Conduct for CFA charter holders.

You may request a complete copy of our Code of Ethics by contacting us at the address, telephone, or email on the cover page of this Part 2; Attn: Jaco Jordaan, Chief Compliance Officer.

ITEM 12 - BROKERAGE PRACTICES

We generally recommend that clients utilize the custody and brokerage services of TD Ameritrade Institutional, a division of TD Ameritrade Inc., or Charles Schwab & Co, Inc., a subsidiary of The Charles Schwab Corporation (“Custodians”) for investment management accounts. We may recommend that you establish accounts with Custodians to maintain custody of your assets and to effect trades for your accounts. Some of the products, services and other benefits provided by Custodians benefit us and may not benefit you or your account. Our recommendation/requirement that you place assets with Custodians may be based in part on benefits Custodians provide us, and not solely on the nature, cost or quality of custody and execution services provided by Custodians.

We are independently owned and operated and not affiliated with Custodians. Custodians provide us with access to their institutional trading and custody services. These services include brokerage, custody, research and access to mutual funds and other investments that are otherwise generally available only to institutional investors.

Clients have the right to not act upon any recommendations, and if a client elects to act upon any recommendations, the client has the right to not place the transactions through any broker/dealer we recommend. We place trades for client accounts subject to our duty to seek best execution and other fiduciary duties. Our recommendation is generally based on the broker’s cost and fees, skills, reputation, dependability, and compatibility with the client. Clients may be able to obtain lower commissions and fees from other brokers where the value of products, research and services given to us is not a factor in determining the selection of broker/dealer or the reasonableness of their commissions. Not all advisers require their clients to direct brokerage. Opus may be unable to achieve most favorable execution of client transactions and that directing brokerage may cost clients more money. Custodians’ execution quality may be different than other broker-dealers.

Custodians generally do not charge separately for custody but are compensated by account holders through 12b-1 fees and custodian ticket charges.

Custodians make available to us other products and services that benefit us but may not benefit your accounts in every case. Some of these other products and services assist us in managing and administering your accounts. These include software and technology that provide access to client account data (such as trade confirmations and account statements), facilitate trade execution (and allocation of aggregated trade orders for multiple client accounts), provide research, pricing information and other market data, facilitate payment of our fees from your account, and assist with back-office functions, record-keeping, and reporting.

Many of these services generally may be used to service all or a substantial number of our accounts. Custodians also make available to us other services intended to help us manage and further develop its business enterprise. These services may include consulting, publications and conferences on practice management, information technology, business succession, regulatory compliance, and marketing. In addition, the custodian may make available, arrange and/or pay for these services rendered to us by third parties. The custodian may discount or waive fees it would otherwise charge for some of these services or pay all or a part of the fees of a third-party providing these services to us.

While as a fiduciary, we endeavor to act in your best interest, our recommendation that you maintain your assets in accounts at our recommended custodian may be based in part on the benefit to us or the availability

of some of the foregoing products and services and not solely on the nature, cost or quality of custody and brokerage services provided by the custodian, which may create a conflict of interest. We endeavor at all times to put the interest of our clients first as a part of our fiduciary duty.

A retirement or ERISA plan client may direct all or part of portfolio transactions for its account through a specific broker or dealer in order to obtain services on behalf of the plan. Such direction is permitted provided that the services provided are reasonable expenses of the plan incurred in the ordinary course of its business for which it otherwise would be obligated and empowered to pay. ERISA prohibits directed brokerage arrangements when the services purchased are not for the exclusive benefit of the plan. Consequently, we will request that plan sponsors who direct plan brokerage provide us with a letter documenting that this arrangement will be for the exclusive benefit of the plan.

BROKERAGE FOR CLIENT REFERRALS

Opus does not receive client referrals from any custodian or third party in exchange for using that custodian or third party.

AGGREGATION AND ALLOCATION OF TRANSACTIONS

We may aggregate transactions if we believe that aggregation is consistent with the duty to seek best execution for our clients and is consistent with the disclosures made to clients and terms defined in the client Advisory Services Agreement. No advisory client will be favored over any other client, and each account that participates in an aggregated order will participate at the average share price (per custodian) for all transactions in that security on a given business day.

We may aggregate trades for ourselves or our advisors with your trades, providing that the following conditions are met:

1. Our policy for the aggregation of transactions shall be fully disclosed separately to our existing clients (if any) and the broker/dealer(s) through which such transactions will be placed;
2. We will not aggregate transactions unless we believe that aggregation is consistent with our duty to seek the best execution (which includes the duty to seek best price) for you and is consistent with the terms of our Advisory Agreement with you for which trades are being aggregated.
3. No advisory client will be favored over any other client; each client that participates in an aggregated order will participate at the average share price for all our transactions in a given security on a given business day, with transaction costs based on each client's participation in the transaction.
4. We will receive no additional compensation or remuneration of any kind because of the proposed aggregation; and
5. Individual advice and treatment will be accorded to each advisory client.

DIRECTED BROKERAGE

We do not routinely require that you direct us to execute transactions through a specified broker dealer. Additionally, we typically do not permit you to direct brokerage. We place trades for your account subject to our duty to seek best execution and other fiduciary duties.

ITEM 13 - REVIEW OF ACCOUNTS

ACCOUNT REVIEWS AND REVIEWERS – INVESTMENT SUPERVISORY SERVICES

We regularly review client accounts along with the securities in those accounts utilizing the ongoing platforms, software, and portfolio management systems available to us. We also conduct periodic account reviews to

ensure that the portfolio mix is consistent with our clients' stated objectives, align with the agreed-upon allocation targets, are consistent with tax planning goals and that security holdings are still appropriate for the portfolios and the client's financial situation.

Clients receive financial reports from our custodian at least quarterly, which provide a portfolio statement detailing the securities owned, unit quantity, price, and month end total market value. Additionally, they have 24/7 access to our custodian's online platform as well as our online portal which provides ongoing information about our clients' portfolio positions, performance, asset, and regional allocations, and documents we post regarding their portfolios.

All clients are advised to keep us apprised of any changes in their investment objectives and/or financial situation. They are also advised to let us know immediately if there is a difference between what is reported by our custodian on the statements and what is reported via our online portal.

STATEMENTS AND REPORTS

Account statements are delivered directly from the qualified custodian to each client, or the client's independent representative, at least quarterly. When you have questions about your account statements, you should contact Opus or the qualified custodian preparing the statement.

Reports regarding the rate of return of accounts under management of Opus are available to clients on-demand through our client portal. Additional reports are available as requested.

We realize that events and circumstances could change dramatically in between normal reviews. Therefore, if you experience a life event that might necessitate an early review of your investments or financial plan, please let us know and we will be happy to schedule a more frequent review. Such an event might include a marriage, divorce, birth of a child, death or disability of an immediate family member, impending retirement, employment status, or you bought or sold a business. We also encourage you to ask us if you have any questions about your financial plan or the reports that we generate.

ITEM 14 – CLIENT REFERRALS AND OTHER COMPENSATION

Our Firm, and its related entities, do not directly or indirectly compensate any person who is not an IAR of our firm nor receive any compensation for any client referrals.

As disclosed under Item 12 Brokerage Practices, we participate in TD Ameritrade and Charles Schwab's ("Custodians") institutional customer program, and we recommend Custodians to our clients for custody and brokerage services. There is no direct link between our participation in the program and the investment advice we give to our clients, although we receive economic benefits through our participation in the program that are typically not available to any other independent Investment Advisers which are not participating in the program. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving adviser participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; access to certain ETFs and mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to us by third-party vendors. Custodians may also have paid for business consulting and professional services received by some of our related persons. Some of the products and services made available by Custodians through the program may benefit us but may not benefit

your account. These products or services may assist us in managing and administering your account, including accounts not maintained at Custodians. Other services made available by Custodians are intended to help us manage and further develop our business enterprise. The benefits received by our Firm or our personnel through participation in the program do not depend on the amount of brokerage transactions directed to Custodians. As part of our fiduciary duties to clients, we endeavor at all times to put the interests of our clients first. You should be aware, however, that the receipt of economic benefits by our Firm or our related persons in and of itself creates a conflict of interest and may indirectly influence our choice of Custodians for custody and brokerage services.

We also receive certain additional economic benefits (“Additional Services”) from Custodians that may or may not be offered to any other independent investment Advisers participating in the program. Custodians provide the Additional Services to our Firm in its sole discretion and at its own expense. We do not pay any fees to Custodians for the Additional Services.

Our receipt of Additional Services raises potential conflicts of interest. In providing Additional Services to our Firm, Custodians most likely consider the amount and profitability to Custodians of the assets in, and trades placed for, our Firm’s Client accounts maintained with Custodians. Custodians have the right to terminate the Additional Services Addendum with our Firm, in its sole discretion, provided certain conditions are met. Consequently, in order to continue to obtain the Additional Services from Custodians, our Firm may have an incentive to recommend to its Clients that the assets under management by our Firm be held in custody with Custodians and to place transactions for Client accounts with Custodians. Our receipt of Additional Services does not diminish its duty to act in the best interests of its Clients, including to seek best execution of trades for Client accounts.

We do not pay compensation to any unaffiliated party for client referrals outside of the scope of relationships described in Item 10.

ITEM 15 – CUSTODY

We do not have physical custody, as it applies to investment advisers. Custody has been defined by regulators as having access or control over client funds and/or securities.

For all accounts, our firm has the authority to have fees deducted directly from client accounts. Our firm has established procedures to ensure all client funds and securities are held at a qualified custodian in a separate account for each client under that client’s name. Clients, or an independent representative of the client, will direct, in writing, the establishment of all accounts and therefore are aware of the qualified custodian’s name, address, and the manner in which the funds or securities are maintained. Finally, account statements are delivered directly from the qualified custodian to each client, or the client’s independent representative, at least quarterly. When you have questions about your account statements, you should contact Opus or the qualified custodian preparing the statement.

Please refer to Item 5 for more information about the deduction of advisor fees.

ITEM 16 – INVESTMENT DISCRETION

For discretionary accounts, prior to engaging Opus to provide investment advisory services, you will enter a written Advisory Services Agreement with us granting the Firm the authority to supervise and direct, on an on-going basis, investments in accordance with the client’s investment objective and guidelines. In addition, you will need to execute additional documents required by the Custodian to authorize and enable Opus, in its sole

discretion, without prior consultation with or ratification by you, to purchase, sell, or exchange securities in and for your accounts. We are authorized, in our discretion and without prior consultation with you to: (1) buy, sell, exchange, and trade any mutual funds, ETFs, stocks, bonds or other securities or assets and (2) determine the amount of securities to be bought or sold, and (3) place orders with the custodian. Any limitations to such discretionary authority will be communicated to our Firm in writing by you, the client.

In some instances, we may not have discretion. In such cases, we will discuss all transactions with you prior to execution or you will be required to make the trades if in an employer sponsored account.

ITEM 17 – VOTING YOUR SECURITIES

We will not vote proxies on your behalf. You are welcome to vote proxies or designate an independent third-party at your own discretion. You designate proxy voting authority in the custodial account documents. You must ensure that proxy materials are sent directly to you or your assigned third party. We do not act with respect to any securities or other investments that become the subject of any legal proceedings, including bankruptcies. Clients can contact our office with questions about a particular proxy solicitation by phone at 331-777-5449.

ITEM 18 – FINANCIAL INFORMATION

We do not require or solicit prepayment of more than \$1,200 in fees per client, six months or more in advance. Therefore, we are not required to include a balance sheet for our most recent fiscal year. We are not subject to a financial condition that is reasonably likely to impair our ability to meet contractual commitments to clients. Finally, Opus has not been the subject of a bankruptcy petition at any time.

ITEM 2 – EDUCATIONAL BACKGROUND & BUSINESS EXPERIENCE

Lisa Bayer, CFA®, CFP®

Year of Birth: 1963

Educational Background:

- 2011: Institute of Divorce Financial Analysts
- 2011: Certified Financial Planner Board of Standards, Inc
- 1990: CFA Institute; Chartered Financial Analyst
- 1990: DePaul Graduate School of Business; M.B.A, International Business
- 1985: University of Illinois at Urbana/Champaign; B.S., Finance

Business Background:

- 01/2016 - PRESENT Opus Financial Solutions LLC; Principal, Managing Member
- 08/2010 – 12/2015 Pinnacle Financial Group, LLC; Principal and Managing Member
- 02/2013 – 12/2015 Pinnacle Financial Group, LLC; Chief Compliance Officer

Exams, Licenses & Other Professional Designations:

- 2011: CERTIFIED FINANCIAL PLANNER™ (CFP®)
- 1990: Chartered Financial Analyst (CFA®)

CERTIFIED FINANCIAL PLANNER (CFP®)

Candidates must pass a CFP-board registered program or hold one of seven advanced degrees, designations or professional licenses and pass the CFP exam. Prerequisites include a bachelor's degree (or higher) from an accredited college or university and three years of full-time personal financial planning experience. Thirty hours of continuing education must be completed every two years. Areas of study include insurance and estate planning, employee benefit and tax planning, as well as investment and retirement planning. CFP practitioners are also subject to strict adherence to the CFP Board's Financial Planning Practice Standards and Professional Code of Ethics and Responsibility.

CHARTERED FINANCIAL ANALYST (CFA®)

The curriculum for this designation is a self-study program consisting of three levels requiring approximately 250 hours of study for each level. Candidates must pass an exam for each level as well. Prerequisites include an undergraduate degree and four years of professional experience involving investment decision-making or four years qualified work experience. Areas of study involve fundamental investment principles such as ethical and professional standards, economics, quantitative methods, accounting, corporate finance, portfolio and investment management and wealth planning. The program's professional conduct requirements require that both CFA candidates and CFA charterholders adhere to the highest standards of ethical responsibility.

ITEM 3 – DISCIPLINARY INFORMATION

Lisa Bayer has no history of any legal or disciplinary events. FINRA's BrokerCheck® is a resource available to review the disciplinary history of Lisa Bayer. <https://brokercheck.finra.org/>

ITEM 4 – OTHER BUSINESS ACTIVITIES

Lisa Bayer has no other business activities

ITEM 5 – ADDITIONAL COMPENSATION

Lisa Bayer does not receive any other economic benefit for providing advisory services in addition to advisory fees or hourly consulting fees

ITEM 6 – SUPERVISION

Lisa Bayer is supervised through a compliance program designed to prevent and detect violations of federal and state securities laws. Supervision is conducted by the Chief Compliance Officer (“CCO”), Jaco Jordaan, who is responsible for administering the policies and procedures. As Chief Compliance Officer, Jaco Jordaan reviews those policies and procedures annually for their adequacy and the effectiveness of their implementation. All policies and procedures of the firm are followed.

Jaco Jordaan may be reached at (303) 325-7945.

Areas of study involve fundamental investment principles such as ethical and professional standards, economics, quantitative methods, accounting, corporate finance, portfolio and investment management and wealth planning. The program's professional conduct requirements require that both CFA candidates and CFA charterholders adhere to the highest standards of ethical responsibility.

CERTIFIED PUBLIC ACCOUNTANT (CPA)

CPAs are licensed and regulated by their state boards of accountancy. While state laws and regulations vary, the education, experience and testing requirements for licensure as a CPA generally include minimum college education (typically 150 credit hours with at least a baccalaureate degree and a concentration in accounting), minimum experience levels (most states require at least one year of experience providing services that involve the use of accounting, attest, compilation, management advisory, financial advisory, tax or consulting skills, all of which must be achieved under the supervision of or verification by a CPA), and successful passage of the Uniform CPA Examination. In order to maintain a CPA license, states generally require the completion of 40 hours of continuing professional education (CPE) each year (or 80 hours over a two-year period or 120 hours over a three-year period). Additionally, all American Institute of Certified Public Accountants (AICPA) members are required to follow a rigorous *Code of Professional Conduct* which requires that they act with integrity, objectivity, due care, competence, fully disclose any conflicts of interest (and obtain client consent if a conflict exists), maintain client confidentiality, disclose to the client any commission or referral fees, and serve the public interest when providing financial services. The vast majority of state boards of accountancy have adopted the AICPA's *Code of Professional Conduct* within their state accountancy laws or have created their own.

ITEM 2 – EDUCATIONAL BACKGROUND & BUSINESS EXPERIENCE

Jaco Jordaan, CFP®, CFA®, CRPS, ChFC, CAIA, EA

Year of Birth: 1974

Educational Background:

- College for Financial Planning, Master of Science
- University of Texas, Bachelor of Business Administration

Business Background:

- 03/2020 - PRESENT Opus Financial Solutions, LLC; Wealth Manager
- 03/2017 – 03/2020 Sanitas Wealth Management, LLC; Managing Member and Financial Advisor
- 03/2007 – 05/2017 H.D Vest Advisory Services; Investment Adviser Representative
- 01/2007 – 05/2017 H.D Vest Investment Securities; Registered Representative

Exams, Licenses & Other Professional Designations:

- CERTIFIED FINANCIAL PLANNER™ (CFP®)
- Certified Financial Analyst (CFA®)
- Chartered Retirement Plan Specialist (CRPS®)
- Chartered Financial Consultant (ChFC®)
- Chartered Alternative Investment Analyst (CAIA)
- Enrolled Agent (EA)

CERTIFIED FINANCIAL PLANNER (CFP®)

Candidates must pass a CFP-board registered program or hold one of seven advanced degrees, designations or professional licenses and pass the CFP exam. Prerequisites include a bachelor's degree (or higher) from an accredited college or university and three years of full-time personal financial planning experience. Thirty hours of continuing education must be completed every two years. Areas of study include insurance and estate planning, employee benefit and tax planning, as well as investment and retirement planning. CFP practitioners are also subject to strict adherence to the CFP Board's Financial Planning Practice Standards and Professional Code of Ethics and Responsibility.

CHARTERED FINANCIAL ANALYST (CFA®)

The curriculum for this designation is a self-study program consisting of three levels requiring approximately 250 hours of study for each level. Candidates must pass an exam for each level as well. Prerequisites include an undergraduate degree and four years of professional experience involving investment decision-making or four years qualified work experience. Areas of study involve fundamental investment principles such as ethical and professional standards, economics, quantitative methods, accounting, corporate finance, portfolio and investment management and wealth planning. The program's professional conduct requirements require that both CFA candidates and CFA charter holders adhere to the highest standards of ethical responsibility.

CHARTERED RETIREMENT PLAN SPECIALIST (CRPS®)

The Chartered Retirement Plan Specialist designation is a graduate level program for advisors focusing on creating and administering retirement plans for businesses. Topics include the types and characteristics of retirement plans, IRAs, SEP, SIMPLE, 401(k), 403(b), 457, and defined benefit plans. The program also includes a focus on qualified plan IRS and DOL compliance testing, fiduciary roles and responsibilities, and plan administration. Designees are subject to a code of ethics and continuing education requirements.

CHARTERED FINANCIAL CONSULTANT (CHFC®)

The curriculum for this designation consists of six core and two elective courses, with a final proctored exam for each course. Prerequisites include three years of full-time business experience within the past five years. Continuing education requirement is 30 CE credits every two years. Areas of study include fundamental instruction on the concepts of financial planning, including investment, retirement, estate, insurance, and tax planning. Individuals who have earned this designation must adhere to The American College Code of Ethics and Procedures.

CHARTERED ALTERNATIVE INVESTMENT ANALYST (CAIA)

The Chartered Alternative Investment Analyst (CAIA) Charter, recognized globally, is administered by the Chartered Alternative Investment Analyst Association, and requires a comprehensive understanding of core and advanced concepts regarding alternative investments, structures, and ethical obligations. To qualify for the CAIA Charter, finance professionals must complete a self-directed, comprehensive course of study on risk- return attributes of institutional quality alternative assets; pass both the Level I and Level II CAIA examinations at global, proctored testing centers; attest annually to the terms of the Member Agreement; and hold a US bachelor's degree (or equivalent) plus have at least one year of professional experience or have four years of professional experience. Professional experience includes full-time employment in a professional capacity within the regulatory, banking, financial, or related fields. Once a qualified candidate completes the CAIA program, he or she may apply for CAIA membership and the right to use the CAIA designation, providing an opportunity to access ongoing educational opportunities. To learn more about the CAIA, visit www.CAIA.org.

ENROLLED AGENT (EA)

An enrolled agent is a person who has earned the privilege of representing taxpayers before the Internal Revenue Service by either passing a three-part comprehensive IRS test covering individual and business tax returns, or through experience as a former IRS employee. Enrolled agent status is the highest credential the IRS awards. Individuals who obtain this elite status must adhere to ethical standards and complete 72 hours of continuing education courses every three years.

Enrolled agents, like attorneys and certified public accountants (CPAs), have unlimited practice rights. This means they are unrestricted as to which taxpayers they can represent, what types of tax matters they can handle, and which IRS offices they can represent clients before. Learn more about enrolled agents in Treasury Department Circular 230.

ITEM 3 – DISCIPLINARY INFORMATION

Jaco Jordaan has no history of any legal or disciplinary events. FINRA’s BrokerCheck® is a resource available to review the disciplinary history of Jaco Jordaan. <https://brokercheck.finra.org/>

ITEM 4 – OTHER BUSINESS ACTIVITIES

Jaco Jordaan has no other business activities.

ITEM 5 – ADDITIONAL COMPENSATION

Jaco Jordaan does not receive any other economic benefit for providing advisory services in addition to advisory fees.

ITEM 6 – SUPERVISION

Jaco Jordaan is supervised through a compliance program designed to prevent and detect violations of federal and state securities laws. Supervision is conducted by the Chief Compliance Officer (“CCO”), Jaco Jordaan, who is responsible for administering the policies and procedures.
